

CONVENIENT COMPOST ALTERNATIVE

# The FoodCycler™

- ∞ Up to 90% Waste Volume Reduction
- ∞ Up to 95% Food Waste GHG Reduction

## Your Convenient Counter-top Companion.

The FoodCycler™ is an indoor household food waste recycler that reduces food waste volume by up to 90%. Using science-backed technology, the FoodCycler™ reduces food waste volume and odours, leaving behind a dry, lightweight soil amendment which can be used in gardening applications.

- ∞ Custom municipal branding available
- ∞ Powerful grinding mechanism can process most food wastes
- ∞ Refillable carbon filters to eliminate odours, reduce packaging waste and reduce costs

## Product Specifications
